

Surrogate Mother Profile

Name: Meg

Age: 30

Location: Georgia

Hello, my name is Meg. I currently live in Georgia with my loving and supportive husband of seven years, Steve, and our two amazing little boys, Pete and Cade. I am the middle child of five children and I am quite close with them all.

I was born in Waterloo, IA and spent eleven years in Bristow, IA until my parents' divorce in 1994. My mom moved us to a small and very charming town named Blooming Prairie, MN where I lived out the rest of my childhood. My mom was a wonderful, loving and very supportive woman. She instilled in me and my siblings the importance of family, kindness, hard work and respect from a very early age. These are the same set of characteristics and ethics my husband and I strive to instill in our two boys.

My family and I enjoy the outdoors, playing on our play set, swimming in our pool, going on walks, and riding our four-wheeler around our property (10.7 acres of land and woods). I love spending time with my family and we do everything with one another. I feel fortunate that I can be a stay-at-home mom and that I get to be the person who teaches and instills the principles my husband and I feel are important. Our boys are bright, funny, energetic, polite, and shy (only in public) and warm hearted. I am so very proud of them both. In my free time I enjoy hunting, baking goodies (passed down to me by my mom), and playing catch-up with my favorite TV shows.

I have wanted to become a surrogate mother since I was around ten. I was sitting in the car with my mom when the topic was brought up on the radio station we were listening to. I asked my mom what a "surrogate" was and after she explained it to me, I knew that if it were possible for me to experience something like that, that I would jump at such an opportunity. I mentioned it to my husband after our oldest, Pete, was born. During my pregnancy, I was very comfortable and active, his delivery went smoothly and he was healthy and beautiful, so I felt confident that I would be an excellent candidate for becoming a surrogate. We agreed that we would have our second, and final, child and that if I still felt the same way that he would be supportive and I could pursue my lifelong fantasy of becoming a surrogate mother. After having Cade, and again, my pregnancy went just as smooth and I was still just as active, if not more, I was free to explore becoming a surrogate. It was like fate.

I am looking to be matched with intended parent(s) who value family and will provide a loving, joyful, stable and safe environment for their child. I am a very cheerful and energetic person. I consider myself to be a warm hearted, supportive, considerate and responsible person and would like to be paired up with a person(s) whom have a similar personality and set of values. I am open to as much communication and involvement in this pregnancy experience as the intended parents feel comfortable with. After the birth, I am hoping to receive updates and photos when it's convenient for the intended parents, such as on birthdays and holidays.

Thank you for your time. I look forward to speaking with you.
